

Cisco Camera

Get a high-definition view indoors or outdoors. These Cameras are 5-megapixel, fixed-dome cameras in vandal-resistant housing.

They provide pan, tilt, and zoom functionality and high resolutions for superior image quality

Features and benefits

The cameras stream crisp, clear video at resolutions up to 2560 x 1920 while maintaining low network bandwidth.

Stream H.264 and MJPEG video simultaneously. Each video stream can be configured with individual resolution, quality, and frame-rate settings.

Digital pan, tilt, and zoom give you 350- to 360-degree views. The cameras provide true day/night functionality and an infrared filter that automatically switches to night mode in low light.

Easily add functions by installing and running applications directly on the camera. Support for Open Network Video Interface Forum (ONVIF) allows for interoperability and communication with other ONVIF appliances.

Automatically record video data to a micro-SD card when the camera loses network connectivity. The camera supports Power over Ethernet (PoE) 802.3af or 24 VAC power through an optional external power supply.
