## Offaly County Enterprise Award

The Offaly County Enterprise Awards took place this week in the Court Hotel, Tullamore.

We were delighted to receive the Business Innovation Award!

This award means a lot to the company, as we continue to offer the best possible service and solutions for our customers.

Many thanks to the Offaly Enterprise Board for the recognition and support that they give to Local Business year after year.

### A new working standard

No matter how your teams work, your work spaces need the higher speeds, consistent reliability, and performance predictability 6E can offer. 6E adds new, clearer spectrum to support new devices, new workloads, and more data traversing the network.

### Capacity for smarter spaces

In the era of hybrid work and meetings that bridge the physical and the virtual, you need a network that works with your team, not against it. 6E networks offer that "wired-like" experience that collaboration tools require for a seamless, inclusive, and secure experience.

### Data-defined networking

Your 6E network is only as scalable as the platform that supports it. Combined with the Meraki dashboard, you can easily optimize performance across sites, secure wireless and IoT connections, and make intelligent plans for the future based on billions of daily touchpoints.
